

KY-SPIN Parent Center

Get SET... Support, Educate, Train for Success!

KY-SPIN (Special Parent Involvement Network) **Parent Center** is a statewide project of KY-SPIN, Inc. KY-SPIN Parent Center PTI (Parent Training & Information Project) is funded by the U.S. Dept. of Education. KY-SPIN Parent Center provides training, information and support for children and youth with all types of disabilities (birth through 26 years old), their parents, families, and professionals. The **mission** of KY-SPIN is to link families and individuals with disabilities to valuable resources that will enable them to live productive, fulfilling lives.

Through a **“Families Training Families”** model, community workshops are conducted on education laws, rights, listening and communication skills, to promote a better understanding of rights and responsibilities.

KY-SPIN Parent Center **provides** families with the knowledge, skills, information and support they need to obtain improved services for their children. Informed Family-Professional education leads to improved Family-Professional partnerships.

Workshops and booths for parents and professionals are on-going throughout Kentucky. There is no fee for KY-SPIN Parent Center - PTI services. Resource materials and referral services are also available. We assist families through one on one consultation stepping through the process of accessing services for their child. SPIN publishes E-News several times a month. If you would like additional information or to be added to the SPIN Listserv, contact:
