

1 KEEP YOUR INFORMATION SAFE

Do not use your whole name, address, or your phone number

2 CATFISHING IS A REAL THING

Be careful who you talk to online; not everyone is safe

BE CAREFUL WHAT YOU POST ONLINE

What you post may not be able to be deleted

3

8 INTERNET SAFETY TIPS

4 Choose Strong Passwords

that can't be easily guessed by others

CLICKBAIT IS REAL

not all websites are safe and not every person on the other end of your chat is safe to talk to

5

BE CAREFUL WHERE YOU CLICK

6 not all links are safe it could be someone trying to steal your information

7 PUBLIC WIFI CAN BE DANGEROUS

this is one of the easiest ways to get your information stolen because anybody can access your device

BE CAREFUL WHAT YOU SEND

8

the information you send via internet, text, and apps can be used against you if what you send is illegal or harmful
