COMMUNITY GOALS FOR THE IEP

You may include functional goals in an IEP. Identify things you would like to learn to increase community involvement and make goals for them. We have listed four sample goals below.

I can use the internet to obtain information.

By the end of IEP cycle, student will be able to identify three safe community websites that provide information on local activities with ____% accuracy

I can use my library card.

By the end of the IEP Cycle, student will be able to locate the library and use their library card to borrow a book with _____% accuracy.

I can introduce myself and carry out a conversation.

By the end of the IEP cycle, the student will be able to approach others, introduce themselves and make conversation with _____% accuracy.

I know how to accept invitations from others to be involved in social activities.

By the end of the IEP cycle, student will understand how to respond to an invitation and insert the invitation in a calendar with _____% accuracy.
