Dream Big

Making a dream board/poster is a fun way to map out your goals! You don't need to have it all figured out right now. Just kick things off with what you know, what you want, and what you're good at! Let your creativity shine and go for it!

My Dream Map

For each need, write down who can help you. If you don't have anyone, that's okay, just note that as a need.

What skills, training and qualifications do I need for my dream job?

What do I need to make my dreams a reality?

College or Trade school	
What do I need to do to go?	What skills will I need to be successful?

Use what you're good at to chase your dreams and take care of what you need.

My strengths are:

Independent Living	
How will I pay for it?	What skills or support do I need?

What do I need to keep doing the things I like to do?
