

THE TRUTH ABOUT WORKING WHILE RECEIVING SSI IN 2020

SSI Provides...

Supplemental Income in an amount up to \$783 per month for a single person (\$1,175 for a married couple) and health insurance through Medicaid.

You can work and earn money while receiving SSI!

The first \$85 you earn each month does not change your SSI benefit. After that you get to keep:

fifty cents

of your SSI
for every

one dollar earned

If your only income is from SSI and your job, when your paycheck reaches \$1,651 per month, your SSI cash benefit will stop. But you will still receive Medicaid until your income reaches Kentucky's threshold amount.

Kentucky's current threshold income is \$30,818 per year!

If you earn enough money from your job to stop your SSI payment, the amount you earn at your job will not be counted when calculating any required Medicaid share of cost payment

IF SSI IS YOUR ONLY CASH BENEFIT, YOU WILL ALWAYS HAVE MORE MONEY TO SPEND BY WORKING!
